

Combiranda CPKA - Designer hood

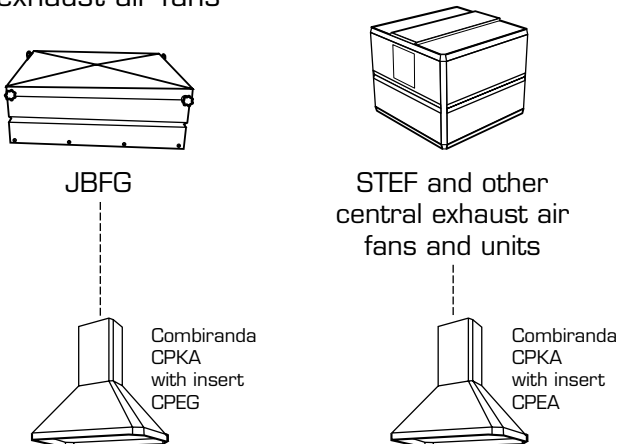

Combiranda is one of Fläkt Woods designer cooker hoods supplied in stainless steel.

CPKA is wall mounted and can be, depending on which insert is chosen, used for multi-unit dwellings with a central exhaust air fan or single-family houses with JBFG or other exhaust air fans controlled with transformer. CPKA can not be combined with JBDD or other fans positioned above the cooker.

A insert CPE must also be ordered when ordering a designer cooker hood. For technical specifications see documentation for Insert CPE.

Combiranda can be used with the following units/ exhaust air fans

Produktfakta

- Modern design
- Wall mounted

Product code

Designer hood **CPKA-1**

Execution _____

1 = stainless steel

(always add a insert CPE to the order)
